

Abstract resubmission for MMSYM 2023: Guidelines

To upload the revised abstract, you need to log into your EasyChair account and access your submission for MMSYM. After that, you will have to click on "View" on the right side.

After that, on the right corner you will see "Update information", "Update authors", "Update file" and "Withdraw". You need to click on "Update file".

There you can upload the revised version of the abstract. **Please make sure that you submit your abstract in an editable format (doc, docx or odt), given that we then need to create the Book of abstracts.**
